

AIR-HANDLING & HEAT RECOVERY UNITS SELECTION SOFTWARE

How to install

-
1. Launch the LMF_CTAPRO_Setup file
 2. Make sure you can install it as Administrator of the pc or at least as Administrator of the folder where the program will be installed (in case please contact your IT person);
 3. Register yourself with organisation name, name & surname, valid email address;
 4. When finished, launch the program;
 5. You will be asked to fill in a form with Name of Organisation, Name of the user and valid email address;
 6. Automatically an email will be generated with the file 'request.cfg' attached, to be sent to climasales@ferrarogroup.eu;
 7. If you get an error message indicating that the mailbox cannot generate this email message, automatically the folder will open where you may find this 'request.cfg' file to attach to an email message for climasales@ferrarogroup.eu to obtain your licence;
 8. When you receive the reply from LMF CLIMA team, your software will be active and ready to use, make sure you have it launched the first time only by the system Administrator;
